1NF

Tabel diatas sudah 1NF karena setiap kolom sudah memiliki ssatu nilai per record

Partial Dependencies:

Partial Dependency

- (<u>ID_STUDENT_</u>-> STUDENT_NAME, MAJOR) (<u>ID_COURSE</u>) -> COURSE_NAME (<u>ID_INSTRUCTOR_</u>-> INSTRUCTOR_NAME)

2NF

Pada table CLASS, jika merujuk pada table paling awal, INSTRUCTOR_LOCATION bergantung pada ID_COURSE, maka memindahkan atribut ke table COURSE menghilangkan transitif dependency dan otomatis sudah dalam bentuk 3NF, tetapi jika INSTRUCTOR_LOCATION bergantung pada composite ID_COURSE dan ID_INSTRUCTION, maka bentuk ini sudah memenuhi 2NF dan otomatis juga 3NF

ID STUDENT	STUDENT_NAME	MAJOR	
33	Donavan	ΙΤ	
40	Jarred	ΙΤ	
34	Luka	ΙΤ	
6	Kai	ΙΤ	
1	Bernando	IΤ	

	ID INSTRUCTOR	INSTRUCTOR_NAME	
	10	lvar	
	8	Elkan	
	3	Hugo	
	5	Amar	
	1	Welber
